

Half Day / Full Day

Fuel Save Driver Training

(FM-012)

FLEETMASTER
GROUP

COURSE OBJECTIVES

This course has proved to be very successful in not only lowering the amount of fuel used over a prolonged period and the environmental benefit, but also reducing the risk of incidents that drivers face day to day. The day starts with a presentation to set the parameters for the day and to introduce the concept of fuel-efficient driving. At the end of the course each driver will have a better understanding of how to use different advanced driving techniques to reduce fuel consumption whilst improving safety and be better equipped to deal with the pressures of driving. Drivers completing the course often see a reduction of 10% saving in fuel usage.

WHO SHOULD ATTEND?

Vehicle operators who would benefit from practical understanding of Eco Driving techniques to improve safety and improve their MPG performance.

DELIVERY LOCATIONS

Any suitable location selected by the booking manager.

Various certification options available

Half day – 1 delegate
Full day - 2 delegates

Online workbooks and information guides available

Post course e-report emailed direct to manager

Any suitable UK location

COURSE CONTENT

- ✓ **Half Day** Training option for single delegate
Full Day training option for two delegates (am/pm sessions)
- ✓ **Reduced environmental impact** through improved driver MPG performance reducing the CO2 impact of the fleet
- ✓ **Protect** colleagues through improved knowledge of safe driving techniques which are the corner stone of Eco Driving
- ✓ **Savings** on fuel spend on average of 10% for drivers trained
- ✓ **Improved** skills and awareness reducing to a reduction in incidents
- ✓ **Improved safety** for colleagues and other road users
- ✓ **Improved operating efficiency** through improved skills and awareness
- ✓ **Proactively manage** the future risk of vehicle incidents
